

## NSF Online ... For Your Critical Business Decisions

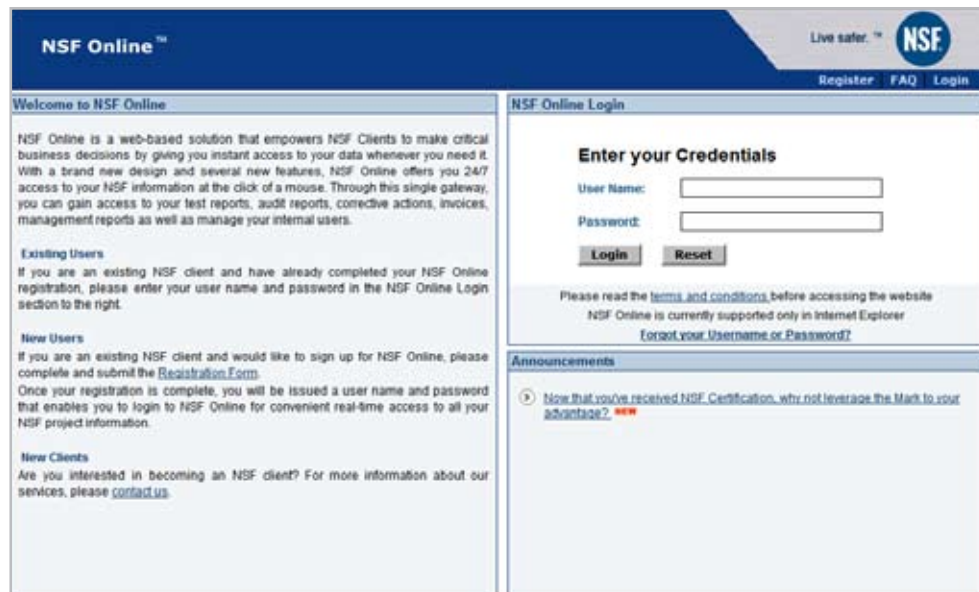

NSF Online is a web-based solution designed to empower you with the right information to make critical business decisions by giving you instant access to your data whenever you need it. With a brand new design and several new features, NSF Online offers you 24/7 access to information on each of your plant audits at the click of a mouse.

### The Benefit

NSF values our customers and wants to provide the highest level of service to meet all your needs. We realize, however, that there may be times during off-hours when you need information. Through the single gateway, you can gain access to your test reports, audit reports, corrective actions, invoices, management reports as well as manage your internal users.

### Security and Trust

NSF Online is your secure gateway providing you with real-time information and status reports to all of your facilities and their activities with ease of use direct through our web portal at [www.nsf.org](http://www.nsf.org). Given the confidential nature of your information, NSF Online is encrypted and utilizes multiple levels of security. You have direct control over who in your organization has access to what types of information and from which locations.
