

## Dietary Supplements Program

## NSF International GMP Registration Program

NSF International's Good Manufacturing Practices (GMP) Registration Program enables manufacturers to become independently registered by NSF International to meet GMP requirements. It is open not just to manufacturers of dietary supplements but also raw materials, ingredients, warehousing and distribution as well as packaging companies who want to demonstrate their commitment to public safety. These GMP requirements are listed in Section 8 of the American National Standard 173 (NSF/ANSI 173) which is the only accredited national standard in the dietary supplement industry and FDA's 21 CFR part 111.

### What are GMPs?

Good Manufacturing Practices are guidelines that provide a system of processes, procedures and documentation to assure the product manufactured has the identity, strength, composition, quality and purity that appears on the product label.

### What are the Immediate Benefits of NSF GMP Registration?

- Increase your company's credibility and integrity
- Offer a competitive advantage in the manufacturer's marketplace
- Increase confidence in the preparedness of manufacturing facilities for FDA inspection
- Decrease the time and cost for companies selecting third-party testing and product certification if using a NSF GMP registered contract manufacturer

### What Additional Services does NSF Offer?

- Personal Service - You are allocated your own personal NSF Project Manager
- NSF's GMP manufacturers can seek to become GMP for Sport™ at no additional cost provided that their facility does not store or utilize athletic banned substances
- Product Listings Portal - Promote your GMP Compliance via NSF's Product Listings at <http://www.nsf.org/Certified/GMP>, a useful source for buyers worldwide
- Leverage the NSF mark

By working in collaboration with NSF's marketing and communications team, build your brand and differentiate your company from the competition.

For more information on GMP Registration, visit [www.nsf.org/business/gmp/index.asp?program=GoodManPra](http://www.nsf.org/business/gmp/index.asp?program=GoodManPra), call +1 734-827-6856, or email [DietarySupplements@nsf.org](mailto:DietarySupplements@nsf.org).
