

膳食补充剂认证方案

产品认证——为您的品牌护航

今天，越来越多的消费者和公共卫生人员寻求识别可靠的高品质膳食补充剂的途径。跟其他补充剂认证方案不一样的是，NSF International执行年度审核并定期对每一个膳食补充剂产品进行测试，以确保对当今最严格的测试标准的持续符合性。NSF制定了美国唯一的膳食补充剂国家标准——NSF/ANSI 173，并且是唯一获认可的根据NSF/ANSI 173 和21 CFR 111要求实施认证的认证机构。

我们评估的产品类型包括：

- 维生素
- 矿物元素
- 草本/植物性成份
- 氨基酸
- 运动补充剂
- 活性浓缩物、代谢物、组成物或提取物

NSF产品认证只需5个简单步骤

- 步骤1——申请
- 步骤2——标签和配方评估
- 步骤3——工厂审核
- 步骤4——产品测试
- 步骤5——产品列名

为什么要为您的膳食补充剂选择NSF认证？

- 唯一的被认可的膳食补充剂及配料、功能性食品的认证机构
- 确保产品生产遵循21 CFR 111的规定
- 被监管部门和工业界广为推崇
- 信心保证——经认证的配料不含有未宣称的物质或不超出污染物可接受量，如重金属、微生物、农药残留、除草剂、霉菌毒素等
- 使公司在竞争中与众不同
- 表明符合良好操作规范（GMP）

NSF的增值服务有哪些？

- 专人服务——为您指派专门的NSF项目经理
- 产品列名于网页<http://www.nsf.org/Certified/Dietary>，该网页是全球采购商经常使用的搜索工具
- 经认证的产品将可使用NSF认证标志
- 发挥NSF标志的影响力，与NSF销售及团队一起，建立您的品牌让您在竞争中与众不同

Dietary Supplements Program

Product Certification – Protect Your Brand

Today, more than ever, consumers and health care practitioners are looking for a way to identify reliable high-quality dietary supplements. Unlike other supplement certification programs, NSF International conducts annual audits and periodically retests each dietary supplement product to ensure continued compliance against the toughest testing standard in existence today. This explains why NSF has developed and continues to maintain the only accredited National Standard to certify dietary supplements – NSF/ANSI Standard 173 and FDA's 21 CFR part 111.

Types of Products We Can Evaluate

- vitamins • minerals • herbs/botanicals • amino acids
- sports nutrition • concentrates, metabolites, constituents, or extracts

Five Simple Steps for NSF Product Certification

- Step 1 - Application
- Step 2 - Label and formulation review
- Step 3 - Facility audit
- Step 4 - Product testing
- Step 5 - Listing of product

Why Choose NSF Certification for Your Dietary Supplements?

- The only accredited certifier of dietary supplements, functional foods, and dietary supplement raw ingredients
- Ensures products are manufactured to 21 CFR 111
- Recognized and respected by regulatory and industry bodies alike
- Assurance - Certified products do not contain undeclared ingredients or unacceptable levels of contaminants such as heavy metals, microbiological contaminants, pesticides, herbicides and mycotoxins
- Differentiates your company from the competition
- Demonstrates conformance to recommended industry Good Manufacturing Practices (GMPs)

What Additional Services does NSF Ingredients Program Offer?

- Personal Service - You are allocated your own personal NSF Project Manager
- Listings on <http://www.nsf.org/Certified/Dietary>, a useful source for buyers worldwide
- Certified products can bear the NSF mark
- Leveraging the NSF mark by working in close partnership with NSF's marketing and communications team to build your brand and differentiate you from your competition
