

NSF International is a leading provider of total food safety solutions to growers, processors, distributors, retailers and food-service operators and the largest North American global certifier to GFSI¹-benchmarked standards. A World Health Organization (WHO) Collaborating Centre for food safety, NSF International is an independent, not-for-profit organization that operates in more than 120 countries.

NSF-CMi, one of the worlds' most widely known and respected food assurance brands, offers a global network of offices to deliver expertise to established and developing food supply operations in all regions of the world.

¹ The Global Food Safety Initiative (GFSI), an independent non-profit foundation managed by The Consumer Goods Forum, was founded in 2000.

NSF Agriculture

The Most Trusted Name in Food Safety.™

NSF Agriculture: Growing to Meet Your Greatest Food Safety Needs

WHY NSF AGRICULTURE

Food safety is paramount to the success of your business. That's why you should entrust your company's reputation to the world's leading food safety and product certification organization - NSF International. The NSF International family of companies has been a global leader in food safety auditing and certification services for more than 66 years. NSF Agriculture couples its pre-farm gate expertise in produce, livestock and poultry with the global expertise of NSF-CMI, one of the world's most widely known and respected food assurance brands, to deliver a one-stop shop for food safety expertise to established and developing food supply operations in all regions of the world. NSF Agriculture is the only resource you need for pre-farm gate auditing, certification and training services.

ONE PROGRAM SOLVES YOUR GREATEST BUSINESS CHALLENGES

NSF Agriculture makes the process of auditing, certification and training simple and convenient so you can focus on managing your business. NSF Agriculture's established network of highly trained and respected industry experts saves you time and money by:

- Providing you with a single point of contact pre-and post-audit.
- Integrating several assessments into a single visit.
- Administering auditing reports within 72 hours.
- Providing robust online data management tools that make managing your food safety compliance and certification programs easy and efficient.
- Administering corrective action reports in 30 days or less.
- Placing local staff in your area to provide you with immediate customer service.

**INTEGRITY,
TECHNICAL
EXPERTISE,
PROFICIENCY.**

THE GLOBAL INDUSTRY LEADER

NSF Agriculture is the leading choice of regional and commodity specific associations and leading global standards owners to ensure the authenticity of certification to their standards. Let NSF Agriculture be your partner to handle all of your safety, training and certification needs, too.

NSF Agriculture has more than 20 years of experience working with key agricultural processors, retailers and legislative bodies in the United States, Latin America, the United Kingdom, Europe and Asia. This global experience enables us to provide expert advice regarding emerging legislation and market trends across the world.

START TODAY WITH NSF AGRICULTURE

Why Wait? Don't take risks with your company's safety and reputation. Ensure your business has the right food safety and quality measures to create sustained business growth. Need training to achieve better results? No problem. NSF can make your company the very best in its total product quality by being your partner in agricultural safety, audits and certification.
