

# CALIFORNIA ARB GREENHOUSE GAS PROGRAM

**With over 70 years of experience, NSF International is uniquely qualified to help you navigate the California GHG reporting landscape**

## THE SITUATION

The California Air Resources Board (known as CARB or ARB) manages the statewide greenhouse gas emissions program.

The Global Warming Solutions Act of 2006 (AB 32) requires that the California Air Resources Board (ARB) determine the statewide 1990 greenhouse gas (GHG) emission level and approve a statewide greenhouse gas emissions limit, equal to the 1990 level, to be achieved by 2020. Assembly Bill 1803, which became law in 2006, made ARB responsible to prepare, adopt, and update California's greenhouse gas inventory.

## THE SOLUTION

NSF International has the local and sector-specific expertise to help you navigate the California reporting landscape. We have the experience and necessary qualifications to provide superior verification services, and to give you the assurance you need to ensure your documents are both accurate and complete.

## OUR LOCAL EXPERTISE:

We have several highly qualified verifiers on the West Coast with deep expertise in relevant sectors.

### Hillsboro, OR

- > Stationary Combustion/Electricity Generation
- > Electric Power Entities
- > Suppliers of Transportation Fuels & Natural Gas
- > Process Industries

### Corona, CA

- > Stationary Combustion/Electricity Generation
- > Refineries
- > Petroleum and Natural Gas Systems
- > Process industries

### Seattle, WA

- > Stationary Combustion/Electricity Generation

### Modesto, CA

- > Stationary Combustion/Electricity Generation

### Huntington Beach, CA

- > Stationary Combustion/Electricity Generation
- > Electric Power Entities
- > Petroleum and Natural Gas Systems
- > Suppliers of Transportation Fuels & Natural Gas

### Arlington, VA

- > Stationary Combustion/Electricity Generation
- > Electric Power Entities
- > Petroleum and Natural Gas Systems
- > Suppliers of Transportation Fuels & Natural Gas

## OUR QUALIFICATIONS

If your company or facility is required to have to your greenhouse gas (GHG) emissions verified under the California Global Warming Solutions Act of 2006 (AB32), NSF has the accreditations required:

- > California ARB's Mandatory Reporting of Greenhouse Gas Emissions program
- > American National Standards Institute (ANSI-Accredited Greenhouse Gas Validation and Verification Body - Accreditation #0216

Additionally, NSF has approvals from the Climate Action Reserve (CAR), The Climate Registry (TCR), and CDP.

## OUR EXPERIENCE

Confidence comes from working with an organization with over 70 years of experience in conducting third-party audits and validating and verifying claims. Let NSF International put our expertise to work for you, providing value-added verifications and validations for assertions associated with greenhouse gas inventories and projects.
