SUSTAINABILITY

Forward-looking business leaders know sustainability is more than an exercise to boost reputation. Not only do more sustainable companies tend to be more trusted by consumers and B2B customers, but demand for sustainability from regulators, shareholders, consumers and employees continues to develop.

To meet this growing demand, we offer a leading portfolio of services that fully integrates the environmental, economic and social benefits of a triple bottom line for our clients and leverages our collaborative strengths across company divisions.

As renowned industry experts with a deep understanding of client needs and industry trends in fast-paced and evolving markets, we establish the benchmark for best practices by fostering innovation, developing metrics and cultivating the best ideas.

ABOUT NSF INTERNATIONAL

Manufacturers, regulators and consumers look to NSF International for the development of public health standards and certification programs that help protect the world's food, water, consumer products and environment. Our mission is to protect and improve global human health. As an independent, accredited organization, we develop standards, and test and certify products and systems.

199,000 audits are conducted annually. 1,400 field auditors working worldwide. 103,000 companies served Business-To-Business. NSF has certified 547,000 products and tests 31,500 products annually. 2,400 employees worldwide, including engineers, chemists, and environmental/public health professionals.

WHAT PEOPLE ARE SAYING

“Of all the companies we’ve worked with, I’ve never had the customer service that I get with NSF. I know the people I’ll talk to and that they will work to address our needs quickly and efficiently.”

– Caroline Allman, Apto Solutions, Inc

“Always a smooth interaction and I have already recommended NSF to several contacts of mine.”

– Doug Mazeffa, Sherwin-Williams Company
SERVICES

NSF offers solutions for creating safer products, setting climate impact reduction targets, sourcing ingredients from more responsible suppliers, developing supplier standards and meeting investor, client, and consumer requirements.
TRENDS

NSF International harmonizes multiple verifications and inspections into one fluid process. This increases efficiency and can reduce costs for companies trying to reach and inform today’s increasingly label-conscious consumers.
