Managing food safety and quality across your global suppliers is complicated. We know your business faces many challenges, but your data management system shouldn’t be one of them. Aspirago’s Supplier Compliance Solution can help you solve issues such as out-of-date documents, non-compliant suppliers, and the inability to move beyond basic compliance.

**ASPIRAGO’S SUPPLIER COMPLIANCE & QUALITY SOLUTION**

- Easily identify problem products or suppliers through the personalized dashboards and drilldown reporting
- Track products and their global supply chain
- Streamline new supplier on-boarding and approval process
- Conduct periodic assessments on specific suppliers or products based on their risk categories.
- Online portal for suppliers to upload their information
- Set your compliance requirements and let the system enforce them continually by reminding the suppliers
- Conduct inspections and audits as needed
- Manage all CAPAs with the closed loop corrective action management

**THE ASPIRAGO DIFFERENCE**

Aspirago’s robust analytics provides risk analyses of your suppliers, so you know at a glance who needs extra support.
