In today's global marketplace, it can be difficult to mitigate risk to your corporate brand throughout your suppliers, channel partners, authorized distributors, resellers, licensees and franchisees. Our second-party assurance services can help you reduce risk and are customizable and scalable to meet your requirements.

**NSF’S GLOBAL SECOND-PARTY ASSURANCE SERVICES**

**Services to audit against company standards**
Meet internal requirements and directives

**Development of internal standards**
Develop a consistent approach and proven audit process

**Channel Partner & Supplier Assessments**
Focus on strategic quality initiatives

**Specialized Audits**
Maintain control of audit program

**Consulting Audits**
Meet and exceed audit commitments

**Gap Assessments**
Benchmark among suppliers

**Global Auditing Platform**
Generate consistent, meaningful data

**Virtual Outsourcing**
Using IT/telephony processes to perform a sector of client work

**Pure Outsourcing**
Perform work on behalf of a client at their site or ours

**HOW WE CAN HELP**

NSF International can show your company how to improve your bottom line, increase customer satisfaction and mitigate risk to your corporate brand through an effective supplier, partner, distributor, or franchisee assessment and management program.

**NSF CAN:**
- Help establish and develop efficiencies
- Identify potential operating weaknesses
- Identify profit margin erosion
- Perform supplier and channel partner risk assessments

**TECHNICAL EXPERTISE**

You can be confident when working with an organization that has 70 years of standards, quality, safety and environmental management experience. Our approach ensures that services focus on performance. Gain an advantage with the NSF team who are experts in your industry and can anticipate issues that may affect your experience.

**EXPERTISE IN ACTION:**
- NSF has implemented a program with Cisco Systems, Inc. offering services for its:
  - Cloud Assurance Services
  - Security Assessments
  - Channel Partner Management: NSF can manage your channel partners, allowing full-scale outsourcing
  - Channel Partner Assessments: NSF can audit your partners to certain specs
- We are currently working with Google to explore the usage of hand held remote auditing technology
- We are experts in information security systems, providing the sense of protection you need to operate in a world of uncertainty. Whether you are protecting your own system or managing service for others, the professionals at NSF can help with services tailored to your needs.
