ENSURE YOUR COVID-19 PLANS ARE CHECKED BY NSF™

Whether you are opening back up, or want to improve your current operations, having the Checked by NSF™ statement at your facility demonstrates you have worked directly with NSF’s public health professionals to implement measures to minimize the risk of COVID-19 among your employees, visitors and guests.

OUR SOLUTION

Checked by NSF™ COVID-19 helps companies communicate their commitment to best-practice guidance on COVID-19 risk reduction for their employees and customers.

Phase 1: PLAN DEVELOPMENT/REVIEW
  > Establish your foundational protocols and policies with scientific principles established by the WHO, CDC, and other national public health authorities
  > Develop risk-based (hot spot) control plans
  > Form and train your COVID-19 team

Phase 2: IMPLEMENT/OPERATIONALIZE YOUR PLAN
  > Prepare your site; implement administrative and engineering controls as per your plan
  > Train employees on new protocols

Phase 3: STAY OPEN
  > Maintain program effectiveness through ongoing monitoring and management
  > Continuously improve and update your protocols as science evolves, risks change and your program matures

Who We Can Help
Our service is available to restaurants, offices, museums, music venues, healthcare facilities, retail stores, factories and others.

About NSF
NSF International is a global public health and safety organization and a leading provider of risk-based management solutions. Our teams are widely recognized for their scientific and technical expertise in the health and environmental sciences.
